THE DOCTORS DISAGREE.

Quick settlement of spectacular Addicks scandal denied.

[Special Cable to The Tribune by the Mail Steamer that sailed from Cape Race, Newfoundland, for Liverpool, & o'clock, March 7.—The Standard Building Company trial for Chairman Addicks from Seattle.]

New York, March 28.—[Special.]—The latest phase in the contest of the so-called Standard Building Company with Chairman Addicks, involving the control of the company's property, particularly Standard Theater, which probably exceeds $500,000 in value, is the result of the alleged action of Addicks in securing the appointment of Dr. Edward Seguin as lunacy commissioner for the city of New York.

Dr. Seguin was appointed to succeed Dr. Lewis Balch, who resigned. Dr. Seguin is a son of the late Dr. Edward C. Seguin, well known as a specialist in nervous diseases, and is himself a physician of high standing. He is a member of the Lotos club, and is also connected with the Manhattan club. Dr. Seguin is a friend of Addicks, and is said to have been appointed at his request.

Dr. Seguin was seen at his home in West Fifty-seventh street this morning, and asked if he had been appointed lunacy commissioner at the request of Addicks.

"I have been asked that question a great many times," he replied, "and I have answered it a great many times. I have been appointed lunacy commissioner, and I have been appointed because I am a physician, and I have been appointed because I am a physician of high standing. I have been appointed because I am a physician who has had a large experience in the treatment of the insane. Burlington Route

THE GREAT STRIKE IS OVER.

Burlington Route

The Burlington Road continues to run. It has surmounted its difficulties. Its trains are running on time. The management of the road remains in the hands of its officers. The public need have no fear. The responsibility for its care and comfort is fully assumed by the company. The Burlington takes the lead. It was in advance of all other lines in establishing dining-car service on its through trains. It was in advance of all other lines in giving the people of the West their fast mail service. It was in advance of all other lines in reducing the time of passenger trains between Chicago and Missouri River points from 20½ to 18½ hours. It has been progressive in the past. It will lead in the future. If you admire an institution that has the courage of its convictions give it your patronage. Commencing Sunday, March 29th, "The Burlington's Number One" fast train will leave Chicago daily at one o'clock p. m., arriving in Omaha the next morning at six, and in Denver the next evening at ten. On the same day the fast train to Kansas City, St. Joseph, and Atchison, commonly known as the "Eli," will leave Chicago at 9:05 p. m., arriving at the Missouri River the next morning, and making direct connections for all points West and Southwest. On Monday, March 26, the second Omaha fast train, leaving Chicago at 9:05 p. m., will go into service again. This train arrives at Omaha and Council Bluffs the next forenoon, and continues to Denver, where it connects with through train of the Denver & Rio Grande for Colorado and Pacific Coast Points.

—SECURES A—

Building Lot in the Great Gas Field.

PORTLAND, the County Seat of Jay County, Indiana, is half way between Fort Wayne and Richmond, and 38 miles from Cincinnati by rail, or about 90 miles in a direct line. It is in the very heart of the largest continuous district of natural gas bearing land in the world; a district which has been developed and tested by hundreds of gas wells, demonstrating beyond a doubt that the gas supply is inexhaustible, and its quality for fuel and illumination unsurpassed. Large manufacturing plants and laborers have been locating in this gas field at the rate of one per week from the date of the certain development.

The Grand Rapids & Indiana Railroad and the Lake Erie & Western Railroad give Portland a North and South and East and West outlet. The country is one of the richest agricultural and stock-raising counties in the State. Portland, with about 5,000 population, has five public schools, a normal college, seven churches, two banks, two fine hotels, besides lesser ones, an opera house, and does a large wholesale, retail, and manufacturing business. The gas wells now in use have an output of about 3,000,000 cubic feet daily, and this supply may be increased at will.

The Evans addition adjoins the north line of Portland, and lies directly on the principal street of the town. The lots are within 100 feet, and lay at the southeast and southwest corners of this Addition. The city offers free gas to all manufactories, and an effort is being made to have the city supply mains free to families. This will insure FREE LIGHT AND FREE FUEL TO ALL.

A large Plat of the property has been lithographed, and will be mailed to each applicant who remits 35 cents. With the Plat will be sent a Bond for a Deed with this amount credited thereon as a first payment for the lot designated on the plat that is sent. Future payments can be made of the same amount per week, or as much more as the purchaser desires to pay. Such payments will be credited, and on completion of payments a Warranty Deed will be executed for the property. Those who desire to pay all cash will be rebated 10 per cent.

The lots are 25x160 and larger, fronting on 50-ft. streets, with 15½ ft. alley, and are equal in value to lots selling within a mile of the gas belt at $250, thus making it a magnificent investment to people of small means, and a chance never before given. We advise taking two or more lots to secure good frontage. There are twelve lots to the block.

The $30 lots are all gone, and we offer lots of better value and at prices as follows: $35, $40, $45, $50, $60, $65, $75, $80, $90, and $100. If any application is received after all the lots are disposed of the money inclosed for plat and fee will be returned.

Remember, the number of lots is limited, and "first come first served." ADDRESS
